

### Installation kit

### Beechcraft King Air and Beechcraft 1900 windshields

#### Description

Replacing a windshield for a King Air or 1900 airplane is easy and quick with an installation kit from PPG's aerospace business.

PPG is the sole manufacturer of OEM windshields for these airplanes and a supplier of spares and rebuilt parts. With years of experience, PPG transparency experts have selected the materials for a quality replacement installation in an affordable kit.

The King Air and 1900 Windshield Installation Kit by PPG's aerospace business comes ready to use. It includes four sponge rubber gaskets cut to size for precise fit and four rubber seal strips designed for securing the windshield in place to assure a superior seal when used with the sealant called out in the maintenance manual. Screws and bolts in various sizes provide a selection to complete the installation for any King Air or 1900 windshield design. An FAA 8130 tag is included for the aircraft maintenance record.

While similar kits are available, PPG's King Air and 1900 Windshield Installation Kit is attractively priced. And because PPG offers rebuilt windshields for direct sale to operators, the kit can be purchased conveniently at the same time as the rebuilt windshield and shipped together.

#### Part number

King Air and 1900 Windshield Installation Kit.....101-5041-3ANB
