

ProFlow® Cassette

Description

Manufactured under license from DEK/Novatech, PPG Industries, Semco® Packaging & Application Systems has designed and produced the ProFlow® Cassette.

This product is specifically designed to be used with DEK DirEKt Imaging™ process, for screen print solder paste applications. Made from a flexi-rigid 30 percent talc-fill polypropylene, the new construction incorporates an integral transition-fit piston assembly to distribute the transfer pressure from the ProFlow® head evenly across the paste mass. The new design offers a substantial reduction in waste, is easily and quickly filled with paste, and is offered in many configurations. It includes five basic components: cassette base, aluminum foil barrier, plunger, plunger seal, and snap-fit lid.

ProFlow™ Cassette

Part no.	Description
234607	Assembly 1 Includes: base w/foil attached, piston w/gasket assembled, black cap
234608	Assembly 2 Includes: base, foil, piston w/gasket assembled, black cap
234632	Assembly 3 Includes: base w/foil attached, piston w/gasket assembled, green cap
234636	Assembly 4 Includes: base, foil, piston w/gasket assembled, green cap
